

**INT. EQUINOX - BRIDGE - SPACE**

RANCOR and ELI study ATLAS on the display table. Rancor points at the planet NECROM.

RANCOR

Necrom. That's where we hit next. There strongest there so they don't expect it. They'll never know what hit 'em!

ELI

Necrom is a rough place. Easy to get lost in the fog.

RANCOR

I know the tombs like the back of my wing.

ELI

We oughta talk about...

RANCOR

We're done talking! Or... oh you're not up for it?

ELI

I spent my fair share among the graves of Necrom. Even dug a few for your kind.

RANCOR

Is that a threat, twig breath?

ELI

Ironic, a bird calling me chicken.

Rancor roars and makes a move on Eli who quickly jams his gun under Rancor's chin.

ELI

Careful now, Rancor. Wouldn't want to mess up that nice... Is it a hairdo when you've got feathers?

RANCOR

Ha! Hey, come on now, Eli, I was only messing with you. Let's talk it through...

Eli lowers his gun.

ELI

Glad you're seeing reason.
